### Synastry Day **Get Your Saturn Off My Sun!**

Lynn Bell • Saturday 13 May

10.30am to 4.45pm, Friends House

*We're delighted to welcome back to the LSA the respected, Paris-based psychological astrologer Lynn Bell for a special day on relationship astrology.*

Why is it that we so often attract partners who have traditionally 'difficult' astrological contacts with our personal planets? After the fun and romance, after the classical attraction of Venus and Sun and Ascendant, and after the cosiness of the Moon, the real work of relationship begins. Today, we shall explore the unconscious contract in relationship: the less obvious patterns that often lie under the surface. We'll also consider how our experience of planets in synastry changes over time, especially with Saturn. Neptune softens and charms, giving the sense of something enchanting just out of reach. Pluto and Mars are necessary for passion but can lead to conflict, power struggles and a semi-permanent state of war. Yet each planet, no matter how troublesome, has something to offer. Each person we meet, especially those we love, will wake something in our own chart. We may feel empowered or chastened, inspired or crushed, dazzled or disappointed. If we are willing to stay with it, to claim the energy woken up inside, the most difficult contacts may bring the greatest rewards. Join Lynn Bell to understand how we can work with planets in synastry over time and how we can find the hidden treasure in relationship. £50 (£45 current LSA). *Included in Year 2 and 3's Term 3.*

### Electional Astrology Day **Navigating Celestial Waters**

Wade Caves • Saturday 24 June

10.30am to 4.45pm, Friends House

*Wade specializes in horary, electional and classical astrology and runs courses for Deborah Houlding.*

Electional astrology is concerned with selecting ideal times for the big decisions in our lives: when to open that bookstore, get married, sign a lease and when to avoid unnecessary troubles. Today, we shall explore its guiding principles with example charts and practical exercises. The techniques are straightforward once understood and will better equip any practising astrologer in their future elections. We will also consider how elections fold into other branches of astrology. This presentation is suitable and warmly encouraged for astrologers at all levels. £50 or £45 for current LSA students.
