### NEW BOOKS and REPRINTS

We're delighted to announce a collection of astrology books that are currently being published or reprinted. These include Frank's new data book (see below), and paperback versions of Rev. Pamela Crane's revision of **The Draconic Chart** (due in June) and Paul Wright's book **Jupiter and Mercury: An A to Z** (June publication). Also arriving in late June is Frank's long-promised revision of **Palmistry 4 Today**, in time for the annual Palmistry Conference (overleaf), and by the autumn there'll be two further books for students/working astrologers: **The Astrologer's Notepad** and **Getting to the Heart of the Chart**. We'll keep you updated on all of the above, and they will all be available from your regular astrology bookstores and online shops.

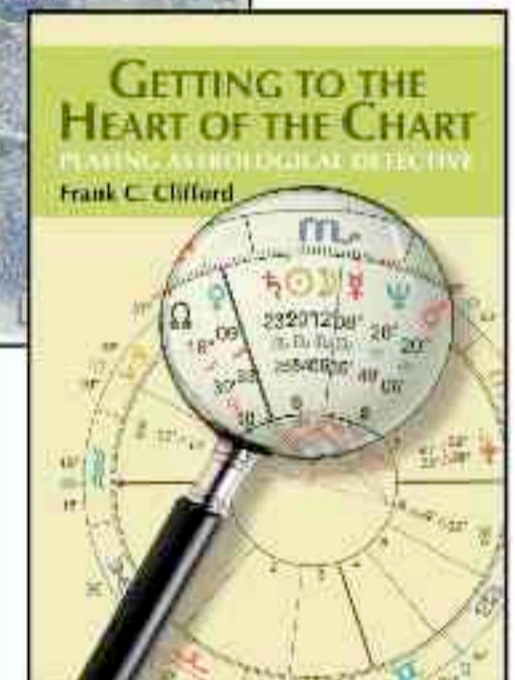

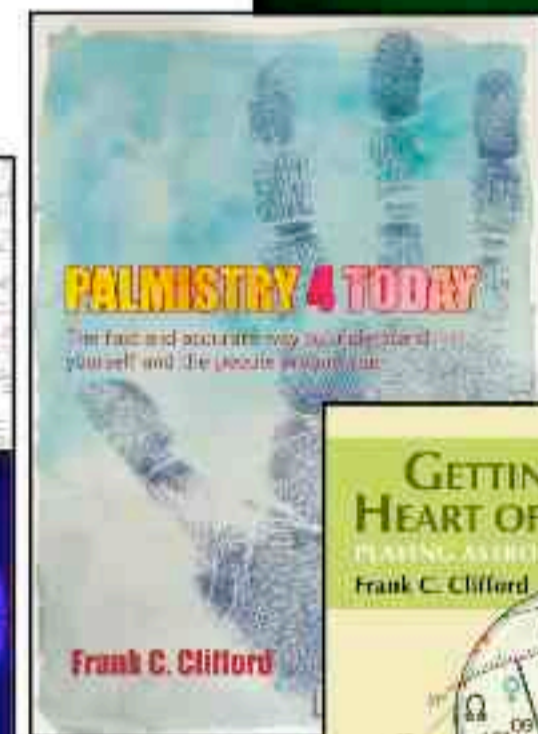

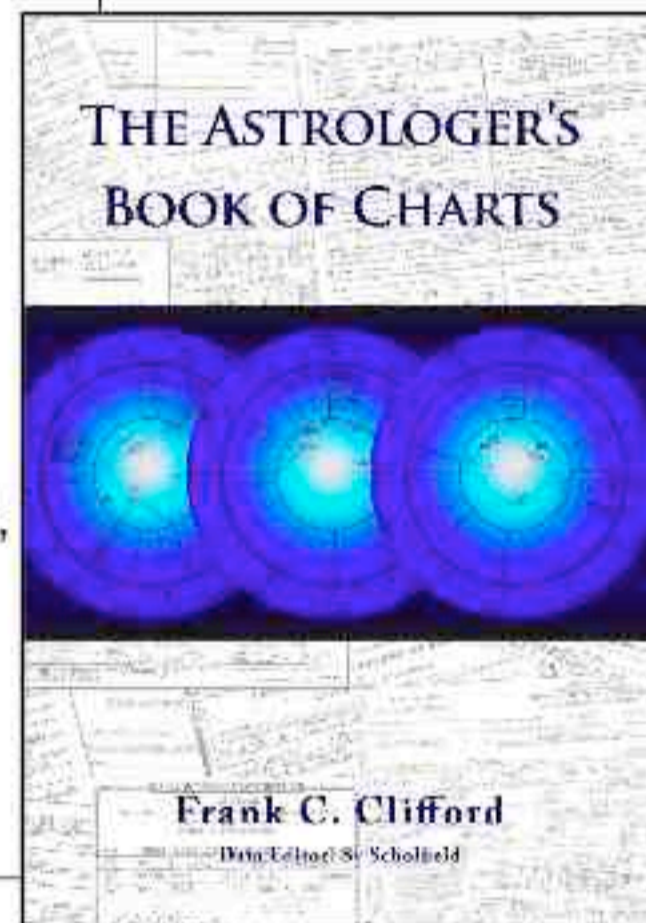

### New Publication (late May '09, £12.99)

#### The Astrologer's Book of Charts

by Frank Clifford

- 150 horoscopes and chart worksheets for the student and working astrologer for research and analysis
- 150 notable names from the worlds of entertainment, sport, royalty, business, art, fashion, literature, politics and crime
- Charts in Placidus and Equal
- All sourced/rated for accuracy
- Many new items of data collected by the author

## Final Saturday Seminars of Term 3 (May to June) – open to all

(see over for booking form, £50 per seminar or £45 current/former LSA students)

### Rectification and Electional Astrology – Sue Tompkins, 23 May, Resource Centre, 356 Holloway Road, N7 6PA

We'll play astro-detective and learn the tools of rectification. If possible, bring an ephemeris (1950 onwards). Later, we'll look at the techniques and tips used in electional astrology to help enable our clients to plan major events in their lives.

### Working with the Consultation Chart – Johan Hjelmberg, 6 June, Resource Centre, 356 Holloway Road, N7 6PA

The LSA is delighted to welcome master-astrologer Johan Hjelmberg from Denmark to lecture on a subject he has pioneered. Whatever happens at the moment of consultation is a symbolic link to the client's story. It is all about seeing where the client is now and identifying the central issues. The natal chart shows the overall pattern and the consultation chart shows what is *actually* happening. Today, Johan will also 'read the synchronistic phenomena' as meaningful to the issue in question – this would typically include the person's choice of clothes and colours for the different parts of the body. Please bring your own cases (clients or personal) for discussion.

### Interpretation and Forecasting Day – Frank Clifford, 20 June, Resource Centre, 356 Holloway Road, N7 6PA

A fun day designed to help students of all levels practice interpretative and predictive techniques with their own charts and other newsworthy horoscopes. Plus a live case study.

### ASTROLOGY AND MUSIC CONFERENCE 2009

For those of you who were unable to attend our first conference in early February, we now have a CD available of the talks plus accompanying charts and presentations. The price for the CD is the same as for the seminar: £50 (payable to 'LSA'). The speakers were Wendy Bristow (Elvis), John Etherington (Dylan, Arthur Lee), Adam Smith (Hendrix, Kiedis), Jane Struthers (Rod Stewart), Neil Spencer (Punk, Jack White), Frank Clifford (80s/Pluto) and Laura Boomer-Trent (Techno music).
