

Palmistry

a weekend course in modern hand analysis

The 2009 Hand Analysis Conference

Saturday and Sunday, 27-28 June 2009, 10.30am* to 4.30pm

For our fourth conference, we've invited back some of the UK's leading experts in the field of hand analysis. Rather than a theme this year, we are offering an exciting weekend course in the major areas of hand analysis. There'll be something for everyone attending – for newcomers to the subject and for experienced hand readers. A study session concludes each day – a chance for attendees to team up in small groups with the experts and explore what they've learned by analyzing their own palms and prints.

* Arrive at around 10am for the chance to have your hands printed.

Venue: Friends House, 173 Euston Rd, London NW1 2BJ (opp. Euston Station and bus terminal, 8-10 mins walk from Euston Square).

SATURDAY

Frank Clifford: TOP TEN TIPS

When examining hands, where do you start? And how do you know what's important and what's not? Frank will address these questions and offer his Top Ten Tips for budding palmists.

Peter West: THE BODY LANGUAGE OF HANDS

Peter will reveal how much information can be garnered from an initial observation of the hands: how people carry them, the wearing of watches and rings, and the all-important handshake.

Robin Lown: THE KEY TO HAND SIZE AND SHAPE

Categorizing hand shape can cause problems for students. There are 7 traditional and 4 modern types. But essentially, it all boils down to 2: palms are either wide (the practical realist) or long (the conceptual 'mentalist'). So, which one are you?

Jane Struthers: DIGITAL PALMISTRY: FINGERS & THUMBS

Our digits reveal so much about us. What do yours say about your self-confidence, thought processes and attitude to money?

Robin Lown: VISIBLE DNA... AT YOUR FINGERTIPS

Fingerprint patterns show a tendency towards a particular life path. Are you a teaching, emotive, practical or debating type?

STUDY SESSION with Frank, Peter, Robin and Jane

A chance to team up in small groups to explore what you've learned today by analyzing your own palms and prints.

SUNDAY

Peter West: THE HEAD LINE

When engaged with clients, it is vital that you understand the person you're speaking to – their level of perception and type of intelligence. These factors can be derived from the Head Line, which also says much about your talents, interests and mindset.

Frank Clifford: THE LIFE LINE

Encircling the Venus mount and thumb, this line is part-Mars, part-Venus. Discover how it reveals your physical stamina and the extent to which you engage in life and strive for fulfilment.

Johnny Fincham: THE HEART LINE

Johnny will explore the many variations of this line and introduce the passion and flirtation lines, which attach to the Heart Line.

Johnny Fincham: THE FATE LINE

The Fate Line is, ironically, about your sense of finding yourself. Johnny will examine the various manifestations of this major line to reveal its full power and potential.

Frank Clifford: UNCOMMON MARKINGS

Frank will introduce the Simian Line, the clubbed thumb and other fascinating and unusual signs found on some palms.

STUDY SESSION with Peter, Frank and Johnny

A useful session for attendees to team up in small groups with the tutors to identify and interpret the lines on their own hands.

The venue's restaurant will be open for lunch. There will be refreshments and a palmistry bookstall. N.B. Programme subject to change.
